

PEDIATRIC INJECTION TRAINING - 1 YEAR

PRODUCT NUMBER: 1168

DESCRIPTION:

The injection training arm and hand simulates that of a 1 year old, with lifelike venous structure. The dorsum of the hand has two veins for additional intravenous set-up and training. It also features the radial and brachial arteries of a newborn patient.

SKILLS:

- IV training exercises
- Venipuncture training
- Blood draw exercises
- Infusion exercises
- Venous therapy
- Tourniquet technique
- Detection of collapses or bulging vessels
- Professional-to-patient communication
