

Pad for I.M. injection in small animals

PRODUCT NUMBER:

DESCRIPTION:

This real I.M. pad offers the opportunity to practice intramuscular injection in dogs and cats.

This two-layer injection pad has a skin-like surface and a simulated muscle layer on which smaller injection volumes can be applied.

SKILLS:

- It allows intramuscular injections to be practised in real-life conditions.

CHARACTERISTICS:

GENERAL:

- I.M. injection pad for small animals with two layers of skin.
- Reusable,
- Tear resistant
- Retain their shape and texture even after repeated use.
- The holder can be used to mount the injection pad vertically or horizontally as required.
