

Premium Suture Set - SUTURE PRO

PRODUCT NUMBER: 3756

DESCRIPTION:

The premium suture set offers the optimal equipment for professional suture training. The solid quality and fine workmanship guarantee long-lasting use, even beyond training on the suture pad.

The suture pad, with its selection of different wound depths, allows realistic training with skin adaptation and subcutis closure in different degrees of difficulty. With the three different Braun needle and thread combinations, skin, subcutaneous or intracutaneous sutures can be realistically trained.

Our suture pads can be used several times after the incision, are tear-resistant and retain their shape and texture even after repeated use. With the practical pad holder, the suture pad can be positioned vertically or horizontally as required.

SKILLS:

MORE THAN SIMULATORS S.L.
