CHARACTERISTICS:

- Properly positioning an animal is a skill that makes a better rounded veterinarian.
- It has natural movements and offers resistance; allowing you to safely practice techniques before working on live animals.
- Fully articulated, Emily has shoulders and hip joints that rotate realistically, with 90° flexibility.
- Also with 90° range of motion are the knees, elbows, and carpal and hock joints.
- This product comes complete with carrying case, kneeling pad and brush.

INCLUDE:

- 1 Emily K9 manikin
- 1 Carrying case
- 1 Kneeling pad
- 1 Brush
