

ZOE BASIC - Gynecological simulator

PRODUCT NUMBER: 1179

DESCRIPTION:

ZOE basic is a **full-sized, adult female lower torso (abdomen and pelvis)** that combines state-of-art materials to create a realistic look, feel and texture in addition to lifelike softness and durability. It is a versatile training tool developed to **assist health professionals to teach the processes and skills required to perform most ambulatory gynecologic procedures**; these include interval and immediate postpartum IUD insertion, interval laparoscopic tubal ligation, and interval and postpartum minilaparotomy.

Optional add-ons model more pathologies for expanding curricula easily with the modular design.

SKILLS:

- Inspection of the vulva and vagina
- Vaginal speculum examination, including visual recognition of normal and abnormal cervixes
