

Adult tracheostomy hygiene simulator

PRODUCT NUMBER: 1468

DESCRIPTION:

The Hygiene Tracheostomy Simulator is the most realistic approximation of a patient available today.

The viewing window at the bottom of the simulator shows the location of an aspiration catheter in the right bronchus (visible) or left bronchus (not visible). Oral, nasopharyngeal, nasotracheal and tracheal suctioning can be performed.

Cleaning of the stoma area can be performed as in a real patient. Dressings and ligatures can also be changed, and the experience is very similar to that of a real patient.

SKILLS:

- Suction techniques
- Correct cuff inflation
- Dressing changes
- Ligature changes
- Catheterisation
- Aspiration:
 - Oral
 - Nasopharyngeal
