

ADVANCED MALE AND FEMALE CATHETERIZATION

PRODUCT NUMBER: 1148

DESCRIPTION:

This simulator is a **"two-in-one" catheterization simulator** designed with interchangeable genitalia so students can practice and hone male and female catheterization skills. It allows participants to **become familiar with female and male external anatomy** while they learn basic nursing skills like catheterization.

Participants can also practice advanced nursing skills like **ostomy care, cervical and rectal examination, and enema procedures**.

SKILLS:

- Aseptic catheterization technique
