

DIABETIC ULCER SIMULATION KIT

PRODUCT NUMBER: 2458

DESCRIPTION:

Hiper realistic simulated wounds for patient characterisation and enhanced simulated scenarios creation.

Place these **diabetic ulcers** directly on a manikin or a standardized patient to practice proper techniques for diagnosis, cleaning, and dressing of the wound.

SKILLS:

- Diagnosis of various stages diabetic ulcers,
- Diabetic ulcer care and maintenance skills training

CHARACTERISTICS:

GENERAL:

- Designed and made with the same materials, manufacturing techniques, and quality used in major motion pictures, these wounds are extremely detailed, including tissue density, subtle skin textures, color, tissue degradation, and fine hair.
- Our stick-on wounds are of high-quality silicone, fast & practical, and very realistic.

- Self-adhesive, but for an even better adherence apply with FX glue gel.
- Easy to apply and remove without leaving residue
- Re-usable many times over
- Washable with warm water
- Add blood, pus, fx make-up, dirt, and soot where needed.

- After cleaning and drying place the wounds back on the plastic sheet, store in a dark and cool place.
- Latex free

INCLUDE:

- 5 Ultra-realistic diabetic ulcer adhesive wounds
- 1 Bottle of purulent discharge
- 1 FX Glue gel
- 1 PET Syringe
- 5 Cotton swabs
- Storage box
- Instructions manual

ADDITIONAL MODULES:

ADDITIONAL MODULES (sold separately):

- SIMTEARS – Simulated tears for moulage dressing (100mL)
