

# Wearable sleeve with multiple lacerations

PRODUCT NUMBER: 2519

## DESCRIPTION:

Enhance the realism of your scenarios with an ultra-realistic simulated sleeve with multiple lacerations; aid in patient characterisation and the creation of enhanced simulated scenarios.

Place the sleeve directly on a manikin or standardised patient to practice proper diagnostic techniques, cleaning, bleeding control and wound dressing.

This sleeve has a fabric strap and Velcro, and can be placed on:

- Thigh
- Leg
- Arm
- Forearm

## CHARACTERISTICS:

### GENERAL:

- Designed and made with the same materials, manufacturing techniques and quality used in leading films, these wounds are extremely detailed, including tissue density, subtle skin textures, colour, tissue degradation and fine hair.
