- Laryngeal mask airway and supraglottic device insertion
- Combi tube insertion
- Fiber optic intubation and video laryngoscopy
- Bag and Mask ventilation techniques

CARACTERÍSTICAS:

- AirSim X airway is certified to practice 20,000+ intubation cycles without fail and is supported by a 5-year airway guarantee
- Realistic larynx which features palpable cricoid landmarks, laryngeal cartilages and tracheal rings to provide positive user feedback and easy identification of the sternal notch

Cost-effective consumables which are quick and easy to interchange, perfect for a busy teaching environment

- Inflatable tongue bulb to create tongue edema providing a variance during training
- User feedback through the visualization of stomach inflation and lung expansion
- Optional subcutaneous fat tissue with blood can be added to demonstrate a more difficult tracheostomy or cricothyroidotomy procedure
- Missing front tooth to illustrate realistic dentals of a 6-year old
- Can be upgraded to an AirSim Child Combo Bronchi X for bronchoscopy training techniques
- Modular design allowing for all parts to be changed within your organization (if required) • Delivered ready to use in a durable carry case for easy transportation and safe storage

INCLUYE:

- 1 AirSimchildCombo X (ensamblado y listo para usar)
- 1 Trucorp Carry Case
- 1 USB PEN Drive que contiene manual del usuario del producto
- 1 botella de lubricación de trucorp (100 ml)
- 5 inserciones de laringe (1 suministradas en manikin & & 4 repuesto)
- 1 piel de cuello envolvente (suministrado en maniquí)
