

# OMNI2 - SIMULATION AND DEBRIEFING CONTROLLER

PRODUCT NUMBER: 1706

## DESCRIPTION:

OMNI 2 makes it easier than ever to drive scenarios, monitor performance, and capture participants' actions for data-rich debriefing sessions.

It is simple to operate with touchscreen controls and an intuitive layout that lets you manage physiological changes while remaining focused on the training. Put simply, it's a frustration-free solution that works to complement your clinical know-how.

OMNI 2 is compatible with a growing selection of over 40 Gaumard patient simulators and skills trainers.

## CASES AND PATHOLOGIES:

### NURSING SKILLS:

### MORE THAN SIMULATORS S.L.

Calle de la Hoya, 4 2º  
44570 Calanda (Teruel)  
España

<https://morethansimulators.com>

- Simulate realistic clinical presentations to train patient assessment and care
- Train patient monitor interpretation and management planning
- Features skill-specific modules including blood pressure and CPR trainers with real time feedback

#### **OBSTETRIC SKILLS:**

- Automatic fetus delivery controls offer you repeatability and consistency between exercises
- Rehearse management of shoulder dystocia
- Virtual CTG monitor support offers practice in FHR/UA interpretation, decision making and documentation

#### **NEONATAL RESUSCITATION:**

- Simulate respiratory compromise to train assessment and management protocols
- Monitor ventilation performance in real-time to improve technique
- Built-in resuscitation algorithms help track participant actions and key events for debriefing

#### **ECPR:**

- Real-time CPR feedback: Compression depth and rate, excessive ventilation, no-flow time, CPR cycle
- Smart Coach: audible tones make it easy to teach the correct rate and ratio every time
- Detailed report lets you identify and improve the weak areas in a provider's performance

## **CHARACTERISTICS:**

#### **CONTROL:**

- Wireless communication lets you move freely to better observe the action
- Over 35 programmable vitals including: HR, ECG, RR, BP, SpO2, EtCO2, and more
- One-touch vitals controls facilitate changes on-the-fly or trending over time

#### **MONITORING:**

- Monitor CPR quality metrics in real time to ensure quality
- Supports optional virtual patient monitor for training assessment and decision-making skills
- Monitor ventilation quality and its effectiveness on the patient

#### **DEBRIEFING:**

- Timestamped log records provider actions, vital signs changes, and notes to aid debriefing
- Includes preprogrammed lists of common provider actions for easy tracking
- Save and share session log for archiving and debriefing
